catalog.allfloridapaper.com

Great for Serving Delicious Subs, Finger Sandwiches, Soft Wraps, Fresh Deli Meats & Cheeses, Fruits and Vegetables, and other Appetizers

PartiPak Cater Trays are Thermoformed

Thermoforming is a manufacturing process where a plastic sheet is heated to a pliable forming temperature, formed to a specific shape in a mold, and trimmed to create a usable product. The sheet, or "film" when referring to thinner gauges and certain material types, is heated in an oven to a high-enough temperature that permits it to be stretched into or onto a mold and cooled to a finished shape.

(12" - CBRE12P), (16" - CBRE16P), (18" - CBRE18P)
