

Perfect for Showcasing Signature Entrees

Withstands Oil Heated to 302°F, and Water Heated to 212°F

Pack Size: Case of 300
GREE745186
10"x10"

Made of Sugarcane
100% Compostable
Biodegradable

An eco-friendly product, these square plates are the perfect size for serving your signature appetizers and crisp, fresh salads. Non-toxic, biodegradable, and compostable, these plates are made of sugarcane and will break down to help reduce landfill waste. Not only are they great for the environment, but they will help to give your establishment a positive image as well! Each microwavable plate is capable of withstanding oil heated to 302 degrees Fahrenheit and water heated to 212 degrees Fahrenheit. Use these renewable products and please both Mother Nature and your customers.
