

Suavé® Premium
TEHT192460 2PLY Dinner Napkin
catalog.allfloridapaper.com

100% Treeless and Made from Sugarcane

Displaying an Image of Sustainability as well as Elegance

GO GREEN with Sugarcane Paper Products.

Why use Suave® Premium

- Reduction of the use of forest resources in the making of our paper products.
- Our biodegradable and 100% compostable paper products are a great eco-friendly choice compared to recycled products. You will also display an image of sustainability and elegance.
- Converting what would otherwise become another greenhouse gas (crops are regularly burned in fields) to a useful paper product.
- Fully-recyclable. Suavé paper products have the appearance of clean, bright white and kraft Virgin paper products, yet are a greener option to recycled Fiber products.
- USDA Certified Biobased Product at 100%.
